

# RAOELIMAHEFA Charly

**Full Stack Developer**

raoelimahefacharly@gmail.com +261 34 39 265 27

LOT AD 13 BIS Ambohitrarahaba, Antananarivo, Madagascar

Passionate Full Stack Web Developer with 3+ years of experience building high-performance, maintainable web applications in both remote and on-site environments. Proficient in JavaScript/TypeScript (Vue.js, React, Stimulus.js), Ruby on Rails, and PHP (Yii/Laravel). Known for clean code, attention to detail, and strong problem-solving skills across the full development lifecycle.

## WORK EXPERIENCE

### Web Developer

**Ets Andriamiadana** · April 2026 — Present

Madagascar

- Built an application to manage and log staff vehicle trips
- Maintained the application and added new features based on evolving needs
- Used React Refine for the front-end, with Hono.js and MySQL on the back-end, deployed on Cloudflare Workers

### React Front-End Developer

**Bliss Holiday** · April 2026 — June 2026

Remote · Mauritius

- Built a dynamic activity catalogue website for Bliss Holiday
- Automatic PDF generation for every newly added activity
- Developed a lightweight back-office for adding, editing, and deleting activities
- Git-as-CMS architecture: data stored as versioned JSON on GitHub, updated via the GitHub API with a token secured server-side (Cloudflare Pages); images hosted on Cloudinary

### Web Designer / Digital Marketing

**Impact Production Group (IPG)** · Oct. 2025 — April 2026

Mauritius

- Research, design and implementation of AI-powered solutions to address the company's operational challenges
- Proposed and implemented SEO optimization strategies for the company website
- Planned and published content across corporate social media channels

### Full Stack Ruby on Rails Developer

**Top-Webgroup (Ineland LTD)** · Mar. 2024 — Mar. 2025

Remote · Mauritius

- Built and optimized a SaaS platform using Ruby on Rails, Vue.js, Stimulus, Turbo, and MySQL
- Improved performance, debugged issues, and refactored legacy code
- Integrated new features and wrote unit tests with RSpec

### Full Stack PHP / JavaScript Developer

**Open Atlas** · Jun. 2022 — Feb. 2024

Remote · Réunion Island, France

- Developed the Communecter platform using PHP (Yii), JavaScript/jQuery, and MongoDB
- Enhanced UI/UX and delivered new product features
- Performed debugging, refactoring, and performance optimization

### Full Stack Node.js / React Developer

**Ny Ask** · Jan. — Sept. 2021

Ankadifotsy, Antananarivo, Madagascar

- Developed a logistics management platform (Node.js, React.js, PostgreSQL)
- Built a back-office system for managing inbound and outbound inventory
- Implemented a barcode scanning system for product tracking

## EDUCATION

### Master's Degree — IT Modelling and Engineering (M2I)
