RAOELIMAHEFA Charly

Senior Full Stack JavaScript Developer · Node.js · React · React Native

Senior Full Stack JavaScript developer with 5+ years of experience, specializing in building high-performance web and mobile applications using Node.js, React, and React Native. From designing REST APIs to building cross-platform mobile apps with React Native, integrating Firebase, and working with headless CMS, I bring precision and professionalism to every stage of the development lifecycle.

WORK EXPERIENCE

Full Stack React / Node.js Developer
Jan. 2025 — Present

Bliss Holiday LTD

Remote · Mauritius

- Designed and developed a web platform managing European clients planning holidays in Mauritius (React.js, Node.js/Express, Payload CMS for editorial content management: guide profiles, destinations, offers)
- Built a Node.js/Express business API handling reservation logic, decoupled from the CMS and consumed by the React.js front-end
- Stored real-time operational data (active bookings, guide availability) in Firebase Firestore, instantly synchronized across internal dashboards
- Built an automated logistics plan generator assigning transport suppliers and tourist guides based on client itineraries and time slots
- Integrated Firebase Cloud Functions to automatically trigger booking confirmation emails and itinerary summaries on each reservation status change

Senior Full Stack React.js / Node.js Developer
Mar. 2024 — Dec. 2024

Top-Webgroup

Remote · Mauritius

- Developed and maintained a Node.js/Express.js REST API consumed by a React.js SPA (MySQL database)
- Implemented JWT authentication, user role management, rate limiting, and data validation
- Integrated Firebase Authentication and Firebase Cloud Messaging for real-time user notifications on the platform
- Set up unit and integration tests (Jest, Supertest) to ensure reliability of critical endpoints
- Worked in Agile/Scrum methodology: Jira ticket management, daily stand-ups, and bi-weekly sprints

Full Stack JavaScript Developer
Jun. 2022 — Feb. 2024

Open Atlas

Remote · Réunion Island, France

- Developed new front-end features on the Communecter platform using JavaScript ES6+ (jQuery, AJAX, MongoDB)
- Built JavaScript modules for collaborative mapping and local resource management
- Optimized MongoDB queries (indexes, aggregations), reducing page load times
- Developed Node.js scripts for automating data processing and import/export tasks
- Integrated Firebase Cloud Messaging (FCM) for push notifications to platform users
- Collaborated in Agile/Scrum with distributed teams across Réunion Island and Madagascar

Full Stack Node.js / React — React Native Developer
Jan. 2021 — May 2022

Ny Ask

📍 Ankadifotsy, Antananarivo, Madagascar

- Designed and built a full-stack logistics platform from scratch (Node.js, Express.js, React.js, PostgreSQL)
- Modeled the relational database schema and wrote migrations using Sequelize ORM
- Developed a secure REST API (JWT, HTTPS) for real-time inbound/outbound inventory management
- Built a React Native mobile app for warehouse operators featuring barcode scanning via the device camera (react-native-camera)
- Integrated Firebase Realtime Database in the mobile app for instant stock movement synchronization across terminals
- Deployed on Ubuntu VPS with Nginx, PM2, and environment variable configuration

EDUCATION

Master's Degree — IT Modelling and Engineering (M2I) 2020 — 2023
EMIT / University of Fianarantsoa, Madagascar

Bachelor's Degree — Intranet & Internet Application Development (DA2I)
EMIT / University of Fianarantsoa, Madagascar
2017 — 2020

Scientific Baccalaureate (Series C) 2016 — 2017
Lycée Saint François Xavier Antanimena, Antananarivo

AWARDS & HACKATHONS

🥇 **1st Place · EMIHACK 2023**
Team NET-BUILDER · Wine sales management platform · EMIT

🥉 **3rd Place · Inter-University Hackathon 2022**
Team KAODY-BUILDER · File sharing tool · Organized by TechZara
